Grammar

We will be using capital letters for names of people, places and I.

Maths

Measurement and Place Value [50]

In maths this term we will focus on the following concepts:

Comparing and describing:

- Length
- Height
- Weight
- Capacity

Place Value

We are now moving on to Place Value [within 50]. We will cover:

- Reading and writing numbers
- Representing numbers
- Identifying tens and ones
- One more and one less

Tens	Ones

Science

Animals

In this unit the children will learn that, animals are similar to each other in some ways and different in other ways. They will begin to start grouping animals by the key features of their appearance.

Working scientifically, they will classify animals that are mammals, birds, reptiles, amphibians or fish using simple observable features. The children will record data, with help, in charts and tables and use these to answer questions.
